

BE A SUPER BOTANIST

Botanists collect plant specimens in their natural environment and record their observations. Plants are super-suvivors and can live in almost every environment on Earth! When you write your observations can you imagine a super hero with similar properties?

PLANT SPECIMEN

Stick your plant in this space or do a drawing of it.

LOCATION

Where did you find the plant? You can also write down a name of the site or a nearby landmark.

HABITAT

Where does this plant live? What do you notice about the location? For example, is it in a wet patch, on a windswept ridge or along a stream?

KEY FEATURES

Describe the stem and leaves as well as any flowers, fruits or cones you can see.
